It is just over 5 months until the 2024 UP Comrades Marathon. The UP RUN is known for The Big Five Hills: Kowies Hill, Fields Hill, Bothas Hill, Inchanga and Polly Shortts. The 1st 3 are all run in the 1st 40km with Inchanga taking you to 50km and Polly Shortts with a little over 10km to go. There are also many other climbs like Little Polly's and Umlaas Road and other unnamed hills, in short, the UP Run is an enormous challenge. It is important to prepare physically for the challenge and in so doing also prepare for the psychological challenge of running 87 odd kilometers from Durban to Pietermaritzburg.

You should be running regularly and ready to train from January.

If this is your first attempt at Comrades but you are a regular runner and can do a Half Marathon under 1hr55 then this is the place for you to start. If you are not a regular runner and have not run a half marathon before or are slower than 1hr55 then you need to follow the Bronze programme, If you find your Time Trial times are closer to this programme, use the Bronze programme and tweak the paces to be 3-5sec/km faster than recommended.

The important message is to start out a little easier and build up a little slower to ensure you build up injury free.

This programme is time based so people of more experience and greater running ability will get relatively more out of the programme and progress faster. Time based programmes also prevent you from settling on a route that you need to run faster every time you run that route. It is therefore easier to maintain discipline and run easy on easy days. The aim is to run a sub 4hr marathon before Comrades.

Also note that training days are interchangeable if your club has Time Trials (TT) on a Tuesday or Wednesday you can swap Thursday with one of these days.

Training Paces for 4hr marathon:

Easy (E):	5:40-6:15/km
Long (L):	5:45-6:30/km
Recovery (rec):	6:20-6:45/km
Hill Repeats:	5:06-5:13/km
90sec	4:00-4:15/km
3min	4:30-4:45/km
Time Trials:	4:30-4:45/km
4km	19:35
5km:	24:40
8km:	40:35

Start at the slower end of the training paces and move towards the faster end as you progress through the coming months of training.

Enjoy the training
